BANK OF TORONTO

An Old and Reliable Institution

Age and stability should be considered in forming banking connections. The Bank of Toronto was incorporated in 1855 and has now been over half a century in active business: its progress during these years has been steady and its large business has been built up on the soundest business principles.

The Savings Department is one that has always received careful attention and this Bank holds the interests of its depositors as indentical with its own and grants as generous terms as safe banking procedure will permit.
